#### About COVID-19 and How to Keep Everyone Safe

# Lots of people have been talking about the Coronavirus. The Coronavirus or COVID-19 is a new virus that is making people sick.

Minot Air Force Base

The Coronavirus gives some people a cough, fever and sore throat. Some people only get a little sick and other people get very sick.

Schools also close to help prevent the spread of germs.

#### There are things I can do to keep myself and my family safe too!

The best way to stay safe is to wash my hands often. I will wash with soap and warm water for at least 20 seconds. That is how long it takes to sing Happy Birthday two times.

#### If I am not by a sink, I can also use hand sanitizer.

### I will also be careful not to touch my face, especially my mouth and eyes.

If I need to cough or sneeze I will use a tissue to catch the cough or sneeze. If I don't have a tissue I will use my elbow.

Minot Air Force Base

This keeps any germs I might have from spreading to other people.
