

"1 in 31"

A unique weekly radio broadcast covering all things related to autism.

Eliza Bozenski, LMSW, Chief Development Officer

The show beyond the statistic

Derived from the prevalence of autism spectrum disorder (ASD) amongst children in the United States, 1 in 31 addresses hot topics affecting the autism community in the Hudson Valley and beyond. The unique interview format features host Eliza Bozenski of Anderson Center for Autism, New York's premier autism treatment center, along with celebrity guests, professionals in the field, community partners, and more.

Bozenski serves as Director of Anderson Foundation for Autism and oversees the Development and Case Management departments. She received her bachelor's degree in psychology from Miami University of Ohio and her master's degree in clinical social work from New York's Columbia University.

The half-hour weekend program is produced by Pamal Broadcasting, LTD. 1 in 31 continues to serve the tri-state area as a leading autism resource since its inception in 2012.

Top episodes and featured guests

1 in 31 continues to welcome and interview some of the most compelling and key players in the field of autism, offering listeners an inside look into the current world, and future, of autism.

→ **Temple Grandin**, one of the world's most accomplished and well known adults with autism. She has a PhD in animal science from the University of Illinois and is a professor at Colorado State University. She is the author of six books, including the national bestsellers *Thinking in Pictures* and *Animals in Translation*

→ **Dr. Kristin Sohl**, a pediatrician with extensive experience in medical diagnosis, evaluation and treatment of children with a concern of autism and other neurodevelopmental disorders.

→ **Dr. Deborah Napolitano**, an assistant professor of ABA at Daemen College. Her research interests are in the areas of rigid and repetitive behavior in individuals with autism, drug and behavior interactions, applications of behavior analysis in child welfare, and the assessment and treatment of severe challenging behavior of persons with IDD.

The Village of Rhinebeck continues to take steps at becoming an "Autism Supportive Community"; 1 in 36 provides the platform to expand the communication on these initiatives to every community to do #1thing.

- Gary Bassett,
Village of Rhinebeck Mayor

With the increasing rates of the prevalence of autism to 1 in 36, we need to be stepping up our efforts to ensure all persons with autism can have the highest quality of life possible. This means we need to do better in New York to create systems that meet the needs of this growing population.

- Dr. Deborah Napolitano,
Assistant Professor, Daemen College
